**I skate because...** Skating allows me to test myself both physically and mentally, there is always a new challenge to take on and it has allowed me to meet new people around the world. It is a great way to push your body to the limit, and when all the hard work you put into succeeding pays off, it is a very rewarding experience.

**I joined Sk8SKOOOL because...** I joined Sk8skool because I feel that it can take my racing career to the next level. Before I started at Sk8skool I was training on my own and I couldn't have improved any more without enlisting the help of the professionals! Sk8skool helps me to mentally prepare before races and gives me a great environment for learning new skills. Furthermore I think that it will provide great assistance for me in achieving my goals.
